

PRESS RELEASE

ARRK PRODUCT DEVELOPMENT GROUP LIMITED

Date: October 2009

ARRK Corporation appoints Tony Lowe as new Managing Director for ARRK UK Operations.

Tony Lowe – MD - ARRK PDG Group - UK

The ARRK Corporation is pleased to announce that Tony Lowe has rejoined the company as its new Managing Director for all ARRK UK operations.

Tony takes up his new role on 5th October and will be overseeing all of ARRK's UK activities. This includes ARRK R&D, ARRK PDG's prototyping operation, NPL Technologies and ARRK Tooling Development. Kazuki Nakao and Naruto Murata will continue to oversee ARRK's activities in mainland Europe, while Koji Tsujino retains overall responsibility for all of ARRK's European companies.

With Peter Rawson due to leave the Group at the end of the month to pursue new challenges, Tony takes his place on the ARRK PDG UK board. Tony had previously worked as Managing Director for NPL Technologies, a company which ARRK acquired back in 2004, before leaving the business in 2007 to fulfil some personal ambitions, including sailing across the Atlantic. Tony now returns, reinvigorated and keen to support each of ARRK's individual company MD's and their highly skilled and valued workforce.

With each of the individual companies continuing to look after their clients' specific needs, Tony will be looking at Group synergies and ways to improve collaboration between the companies to provide customers with an even better service.

Tony commented: "It's great to be back! Together as a team we can drive ARRK forward to meet the needs of our customers, now and well into the future."
